Ahmad Zia Hasan Modarrisi

SOFTWARE DEVELOPER

PROFILE

I'm a Software Development student with a deep interest in building apps. Coming from a background in event leadership, I've learned how to manage high-pressure situations and lead teams, skills that I now apply to architecting clean, efficient code. I'm a problem-solver at heart and am eager to bridge the gap between my academic foundation and real-world software engineering as an intern.

EDUCATION

ICT: Diploma in Application Development 2023 - Present

Cape Peninsula University of Technology

Matric (Bachelors Pass) 2018 - 2022

Al-Azhar High School

PROFESSIONAL EXPERIENCE

Floor and Team Lead 2024 - 2026

Events and Operations

- Coordinated complex operational workflows for large-scale events, ensuring seamless execution and service delivery.
- Led and mentored diverse teams of staff, optimizing performance through effective task delegation and clear communication.
- Managed high-pressure situations and resolved operational bottlenecks in real-time, maintaining a professional and client-focused environment.
- Upheld rigorous standards for safety and efficiency, consistently delivering high-quality results across multiple venues.

TECHNICAL EXPERTISE

System Infrastructure: Proficient in PC assembly, hardware diagnostics, and full-stack OS installation/configuration for both Windows and Linux environments.

Network & Support: Experienced in basic network troubleshooting and connectivity setup, ensuring reliable system performance and uptime.

Development Workflow: Strong understanding of version control (Git) and collaborative development environments, with a focus on writing clean, maintainable code.
